

Restricted Area Electives

The following is a list of approved Restricted Area Electives for EE and CEO students. The electives are grouped by suggested areas of study within Electric and Computer Engineering. However, a student is free to choose any elective listed that does not duplicate other program requirements. Special topics courses such as ECE 491 and ECE 493 may also be approved by petition.

AREA 1: SOFTWARE AND EMBEDDED SYSTEMS

CS 101 Computer Science II
CS 200 Software Engineering
CS 201 Data Structures and Algorithms
CS 403 Programming Languages
CS 407 Software Interface Design
CS 415 Software Design and Development
CS 426 Introduction to Operating Systems
CS 434 Compiler Construction
CS 435 Computer Graphics
CS 457 Database Management Systems
CS 460 Introduction to Autonomous Robotics
CS 465 Artificial Intelligence
CS 470 Introduction to Computer Algorithms
CS 480 Computer Simulations
ECE 404 Sensor Networks
ECE 406 Computer Communications and Networks
ECE 408 Communications
ECE 409 Communications Lab
ECE 480 Digital System Design
ECE 481 Digital System Design Lab
ECE 482 Computer Vision & Digital Image Processing
ECE 484 Computer Architecture
ECE 485 Programmable Logic Controllers
ECE 486 Embedded Systems
ECE 487 Embedded Systems Lab

AREA 2: ELECTROMECHANICAL SYSTEMS

ECE 451 Power Electronics
ECE 452 Power Electronics Lab
ECE 453 Power Systems
ECE 454 Power Systems Lab
ECE 455 Electromechanical Systems
ECE 475 Control Systems Analysis
ECE 476 Control Systems Lab
ECE 479 Digital Control Systems

AREA 3: MATERIALS AND DEVICES

ECE 430 Solid State Devices
ECE 432 VLSI Design

ECE 434 Mixed-Signal Circuits
ECE 435 Microsystems Packaging
ECE 438 Integrated Circuit Fabrication Principles
ECE 439 Thin Film Technology
ECE 440 Electromagnetic Waves
ECE 445 Antennas
ECE 461 Quantum Nano Electronics
ECE 462 Nanophotonics:Semiconductor Optoelectronics
ECE 463 Magnetic Materials and Devices
ECE 466 Fundamentals of Nanotechnology

AREA 4: GENERAL COURSES

Aerospace Engineering and Mechanics – AEM 201

GES courses - GES 400, GES 401, GES 418

Mathematics (MATH) - All courses above MATH 238 not duplicating other courses required in the curriculum. Exceptions to this include all courses with math education as the primary emphasis (e.g. MATH 303, 309, 402, 405, and 406).

Physics (PH) - All courses 300 and above not duplicating other courses required in the curriculum.

Mechanical Engineering Courses – ME 215, ME 305, ME 372

September 2014
